To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant-Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

———

The Honourable the Lieutenant-Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislarive Assembly:

In bringing this Second Session of the Twenty-fifth Parliament of Ontario to a close, I wish to thank you for your diligent and faithful attention to the affairs of this Province. Continuing population growth and industrial expansion have necessitated that you press forward with well-conceived and soundly planned projects conducive to the expansion of enterprise and improvements in well-being. Such has been the purpose of the many Legislative enactments and expenditures which you have approved.

You have been mindful of the needs of the municipalities and at this Session have approved an increase of over $21 million, or 13 per cent, in assistance to them, the school boards and other local agencies. You have approved an expanded program for school and university facilities, hospitals, highways and municipal roads, public buildings, conservation works, water and sewers and other purposes.

In the field of education, the present need for new school facilities will be greatly aided by the assistance you have authorized. You have also taken steps to stimulate an increase in the number of qualified teachers. You have embarked upon an unprecedented program of university expansion. Assumption University of Windsor has come into this circle. The Lakehead College of Arts, Science and Technology has been established. You have voted substantially larger monies for agricultural colleges and farm research. The Ontario Government's appropriation for highways and municipal roads subsidies totals $183 million, making possible—with the municipal share of expenditure on local roads—a combined budget for these purposes of $233 million.

You have enacted legislation to set up the Ontario Water Resources Commission. This Commission, which will follow the pattern established by The Hydro-Electric Power Commission of Ontario, has been given authority to develop water supplies and to build and operate water supply and sewage disposal systems. Funds have been provided to enable it to set up its administrative organization and to make a start in areas in southern Ontario where water shortages and sewage problems are most pressing and where there are distinct advantages of development on a regional basis.

The Hospital Services Commission has been established to achieve an optimum integration of hospital services in Ontario and to provide the foundation for a hospital insurance program. Intensive studies have been made of this whole complex and difficult subject. The Legislative Health Committee held sittings at which full details of benefits, costs and implications of alternative plans were reviewed. As very heavy costs are involved in the operation of a hospital insurance system, it is imperative that all avenues be thoroughly explored and that there be the widest possible dissemination of information.

You have also approved a number of important health measures. You have made provision to guard children against the dangers of poliomyelitis by approving the purchase, at a cost of nearly one million dollars, of over three and a third million units of Salk Vaccine. The Sanatoria for Consumptives Act has been amended to tighten control over tubercular persons in custody and to permit other than T.B. treatment to be carried on in designated sections of a sanatorium.

A number of welfare bills have been endorsed. You have increased to $20 per month the supplementary assistance payments to old age pensioners, of which the Province's share will be $12. The Charitable Institutions Act, 1956, provides a general revision of the existing Act. Grants for new construction were increased and a new grant instituted to assist charitable organizations to buy existing buildings. The maintenance grant per inmate was also increased. An extension of benefits in certain special cases has been permitted under The Mothers' Allowances Act. The Province's maximum responsibility for private home care for the aged has been increased.

The orderly development of our provincial parks system has been made possible through legislation to establish the Ontario Parks Integration Board, which will provide a consolidated management and development program. Funds have been authorized for carrying out this policy.

You have revised a number of acts dealing with the municipalities. The Metropolitan Toronto Act was amended to provide an integrated police force for the metropolitan area, while provision was made for biennial elections of the municipal councils of all the area municipalities.

A Metropolitan Toronto and Region Conservation Authority has been set up to include the existing conservation authorities in Metropolitan Toronto and the surrounding area. Changes have been made in the Fire Departments Act and the Police Act to

facilitate collective bargaining. The Municipal Subsidies Adjustment Act, The Provincial Aid to Drainage Act and The Territorial Division Act have been amended.

In the field of labour, amendments have been made to The Labour Relations Act. Under amendments to the Workmen's Compensation Act, the earnings ceiling on which compensation is calculated has been raised from $4,000 to $5,000.

Agriculture has received your attention. The total loans possible under The Junior Farmer Establishment Act were doubled to $20 million. The Co-operative Loans Act, 1956, sets up the Co-operative Loans Board of Ontario to consider loans to co-operative associations of producers of farm products. The loan ceiling has been raised to $100,000. A new Act has been passed to regulate the use of pesticides. The Brucellosis Control Act has been amended to insure better control of this cattle disease. Other legislation has dealt with agricultural societies, seed potatoes and the Ontario Food Terminal. You also voted $9.2 million for rural hydro power extension during the 1956-57 fiscal year.

You have voted funds for the management and conservation of our forest resources. A special appropriation has been made for the regeneration of white and red pine and spruce. To strengthen administration, you have passed amendments to The Crown Timber Act, The Public Lands Act and The Game and Fisheries Act.

A number of amendments to The Mining Act have been made, notably one setting up a Mining Commissioner to replace the Mining Court. This will facilitate the processing of matters arising from mining claims. The Report of the Committee of Inquiry into the Economics of the Gold Mining Industry of Ontario was tabled for your consideration.

During this Session, you were presented with reports of recent Federal-Provincial Conferences. These included a review of the proposed new fiscal arrangements between the Federal Government and the Provinces, a comprehensive hospital insurance and diagnostic services plan, and the farm marketing problem. The Federal Government's latest proposals for fiscal arrangements were tabled. To deal with these arrangements, a Special Session of the Legislature will be held later this year. While the Legislature has been in Session, the Province has arranged a submission to the Supreme Court of Canada on the question of provincial jurisdiction in regard to compulsory farm marketing schemes. Pending a judicial decision from the nation's highest court, intensive studies into various alternatives are continuing, which will be considered in a Special Session.

Gratitude is expressed to the several Committees of the House for their able and conscientious work on a number of complex problems.

Three Select Committees reported to the House during the Session: The Select Committee on the Establishment of a System of Certificates of Title of Ownership of Motor Vehicles; The Select Committee on Toll Roads; and the Select Committee on Air Pollution and Smoke Control. All these Committees tabled reports containing recommendations which will be given intensive study and consideration. The Select Committees on Toll Roads and Air Pollution and Smoke Control have been reconstituted.

To make available a new source of fuel and power for Ontario's growing industry and population, legislation has been passed authorizing the Province to loan up to $35 million to a Crown corporation in order to facilitate the construction of a natural gas pipeline across Northern Ontario.

During the Session you also approved the setting up of the Department of Economics.

You also approved the reorganization of the Archaeological and Historic Sites Advisory Board which seeks to foster greater knowledge of the Province's storied past through a better marking of historic sites and events.

Amendments have been made to The Financial Administration Act, The Ontario Fuel Board Act, The County Court Judges' Criminal Courts Act, The Crown Witnesses Act, The Jurors Act and The Summary Convictions Act. The legal framework for the improved administration of The Land Titles Act has been provided. Amendments have been made to The Conveyancing and Law of Property Act, The Limitations Act, The Settled Estates Act, an Act respecting Real Property and The Fraudulent Conveyances Act, while The Estates Tail Act was repealed.

An Act was passed providing for the separate taxation of diesel fuel used in motor vehicles.

A measure instituting full-time membership on the Ontario Highway Transport Board has been approved, while other amendments have been made to The Highway Improvement Act, The Land Surveyors Act, The Regulations Act, The Training Schools Act, The Trustee Act, The Railway Fire Charge Act, The Limited Partnerships Act and The Fire Marshals Act.

Extensive amendments have been made to The Securities Act, while parts of The Insurance Act dealing with fire insurance and with accident and sickness insurance have been revised. The Credit Unions Act was also amended.

You have also approved amendments to strengthen The Public Schools Act, The Secondary Schools and Boards of Education Act, The Department of Education Act and The Separate Schools Act.

In addition to the salary increments which are paid to members of the Civil Service annually in cases of meritorious service, the salary ratings of many civil servants, particularly in the junior grades, are being increased. Moreover, an amendment to The Public Service Act will enable casual employees, upon their appointment to the Permanent Staff and payment of contributions, to become eligible under the Pension Fund for the full time they were employed as casual workers. The Legislative Assembly Act has been amended to bring the provisions for indemnities into line with those provided elsewhere.

I wish to thank the Honourable Members for their earnest consideration of all these measures and for the financial provision that has been made to meet the Government's requirements in the coming fiscal year. It is a source of gratification that in the face of the inexorable increases in expenditures for education, hospitals, public welfare, highways, municipal thoroughfares and provincial and municipal services of all kinds, the fiscal position of the Province has remained strong. However, the demands for essential services are out-pacing our revenues, and the situation calls for the most careful husbanding of our financial resources, both on the part of the Province and the municipalities. It cannot be overlooked that an amount equivalent to over 40 per cent. of the Province's net ordinary revenue is being paid to the municipalities, the school boards and other local agencies. Nevertheless, municipal tax rates are also rising. It is unfortunate that the Province's negotiations with the Federal Government on fiscal arrangements have been disappointing.

Owing to the conservation of our credit in past years, Ontario's bonds continue to be held in high regard by the investing public. Thus, we are able to finance our large-scale obligations at low rates of interest. This position must be maintained, and our efforts will be devoted to that end. In spite of our problems, the Ontario economy continues to forge ahead in economic development. Our total provincial product last year—the end value of all goods and service produced—rose by 10 per cent. Business is buoyant and employment continues on a high level.

In proroguing this Session, I pray that Divine Providence will bless this Province and promote the well-being of the whole Nation.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RODERICK G. LEWIS,
Clerk of the Legislative Assembly
of Ontario.
